

# VIDEOLICIOUS

By now we've all had a chance to familiarise ourselves with the **Videolicious** app and now it's time to use it effectively!

You and your partner/s will need to **RECORD** yourselves capturing...

## ***The Elkanah SP campus in only 50 seconds!***

This will naturally take place in the form of an oral **BUT** you will NOT be doing this oral LIVE in front of the class as per usual! We will be watching your recording in class!

**Consider the following DETAILS carefully:**

1. Since you need to share the **Elkanah SP campus in 50 seconds**. What would you include if you only had 50 seconds to explain to a friend overseas what our campus looks like, what you would find at our campus, the layout of our campus etc
2. You may work in **pairs or threes** but all members of the group must work equally!
3. Obviously it's a video clip but you **need to talk** the audience through everything you are showing them.
4. Remember it's a very different sort of oral as you may **re-record** it as many times as you wish until you are happy with it! Plan your 50 seconds carefully though, it's not much time!
5. Have a look at the **rubric** on the other side of this page to check on the criteria.
